Advisory backed by former Customs officials and seasoned international trade professionals.

04

Tech-Enabled Compliance

Real-time tracking, structured reporting, and transparent compliance monitoring through technology

05

SLA-Driven Turnaround

Faster turnaround times ensured through defined SLAs and process discipline.

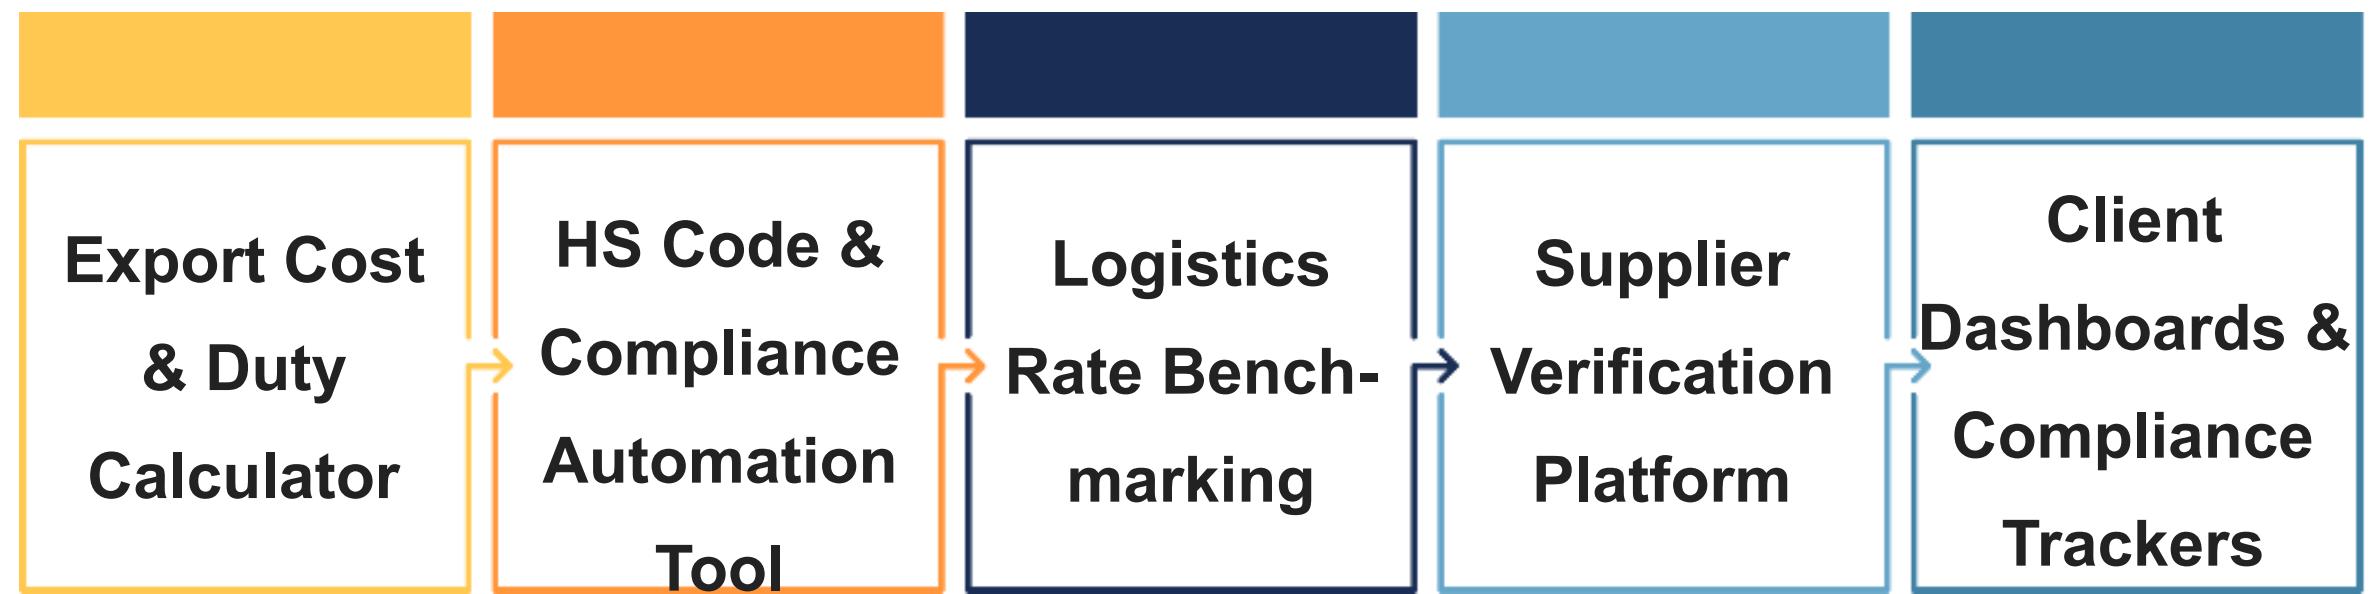

06

Compliance with Cost Efficiency

A compliance-first approach designed to minimize risk while optimizing overall trade costs

Technology-Driven Consulting

Rakesh Gupta

CEO/Founder

Rakesh brings over 15 years of extensive experience in Logistics and Customs Operations, with deep expertise in international trade & regulatory compliance. A licensed Customs House Agent (CHA – F Card holder), he possesses strong hands-on knowledge of customs procedures, clearances, and trade regulations. Backed by an MBA, he combines operational excellence with strategic leadership, driving compliant, efficient, and growth-oriented logistics solutions for the organization.

ARADHYA EXPORT IMPORT CONSULTANTS

Rakesh Gupta

CEO/Founder

Dear Valued Exporter / Importer,
Greetings from Aradhya Export Import Consultants

In today's dynamic trade environment, we understand that many exporters and importers are facing significant challenges in obtaining timely customs clearance due to the non-availability or delay in arranging mandatory licenses, permissions, or NOCs as required under various Customs and allied regulatory provisions. Such requirements—often changing with product classification, country of origin, end use, or regulatory updates—can lead to shipment delays, increased demurrage, and operational uncertainty.

With this in mind, I would like to personally inform you that Aradhya Exim provides comprehensive advisory and licensing support under a single-window model to help you navigate these complexities smoothly.

Our services include:

- End-to-end advisory on Customs and allied Acts
- Assistance in identifying applicable restricted or regulated requirements
- Procurement of Import & Export Restricted Licenses / Authorizations
- Coordination with relevant regulatory authorities under the Single Window Customs framework
- Proactive guidance to ensure compliance before cargo arrival or shipment

Our objective: Ensuring uninterrupted cargo clearance while maintaining full regulatory compliance, allowing you to focus on your core business.

We would be pleased to understand your specific requirements and support you with a tailored solution. Please feel free to reach out to our team or schedule a discussion at your convenience.

~Rakesh Gupta

We look forward to partnering with you for seamless and compliant international trade.
